

Bride **"Fly Away"**

Visit "[Fly Away](#)" on MotoLyrics.com

Take a little and leave a lot
I'm in control calling the shots
It's coming down from the sky
Appointed unto man once to die

I have no world but the one to come
I am a loner what have i done
I won't leave 'till i've shown you right
Attack i may i love to fight

I'm being caught away
You rapture my soul
I'm being caught away
Life will take it's toll

I'm only passing through what they call life
I'll get it with or without pain and strife
He suffered once, i will too
I just hate to leave without you
