

Bride

"No More Nightmares"

Visit "[No More Nightmares](#)" on MotoLyrics.com

The night is alive
It calls out your name
Say your prayer
To ease your pain

I try to hold on one more day
I pray the vision will fade away
So afraid to close my eyes
I don't want to die

No more nightmares
No more crime
No more nightmares
No more bedtime

All the children seem alone
Crying in the night
Dry your eyes
Love is alive

It seems the time is forever slipping by
And i wonder how much time we really have
With destruction in our way, will there be another day
Won't you save us from ourselves
