"Rock Those Blues Away"

I don't need no doctor
To tell me i'm a sick man
Don't need no doctor
To give me a helping hand
I need to roll those blues
Rock those blues away

I don't need nobody
To ease my aching mind
Don't need nobody
Complaing all the time
I need to roll those blues
Rock those blues away
Gonna rock those blues away

I don't need no bottle
Talking to me
I don't need no bottle
Full of misery
I gonna rock those blues away

Let me tell you brother
What i need

I need a smooth playing guitar, in my hand
Listen to the rhythm of my band
