"Until The End We Rock"

Visit "[Until The End We Rock](#)" on MotoLyrics.com

Satisfies your mind can't save your soul
Would you die for rock 'n' roll
Get your feet moving your hands in the air
Scream it out everywhere

Until the end we rock
Until the end we rock
No we'll never stop
Until the end we rock

Only pleasure in the whole wide world
Play music for the guys and girls
There's a reason i sing my song
I love the sage that i'm on

Make a fist, fly 'em high
Lift your voice to the sky
Must make noise to be heard
Shout it out with strong proud words
I only come alive at the pitch of night
Do the show under the blinding lights
Raise my cross, i'll bleed for you
How my soul cries out to you
