

## Great Sorrow "The Moan In Time"

The thick Moan of Universal Alarm Bell  
carries away in Remote Past and responds  
in a Calm Beats of a Clock on a Wall...

Disembodied Imagination dissolves  
into Molecular State and Heavy Bell  
returns it into Apocalyptic Beginning  
and blows up your Faith...

Fire Streams of Bloody Glow  
breaks into Red Hot Metal in Search of Escape

And Boom Rumble of Monstrous Metronome  
spreads on a Dawn-Burn Landscapel

Monotonous Knock of a Balance  
does not disturb a Sleeping Imagination  
but wit every Step it cuts down  
a Distance to Copper Explosion...  
And Moment of Time Stopping  
could turn into Endless Tragedy in Emptiness!
