The night comes hiding the day  
Awaking his hungries sons from the  
Great Vast Forest  
It's the Wolvesclan  
Warriors from the hate  
Six south spirits ready to fight

The road was treched  
Soon we'll be a lot  
Like a milenar imprecation  
Nothing will stop us  
To make the Evil rise

It's time to rise the ancient glory  
The fury and the guts of my clan  
Awake forever in carnage  
We'll revenge ancient times

Wolvesclan-Blood by Honor  
Wolvesclan-Supremacy and Pride

Listen to the howl in the night  
Like hymn to the war when just  
The moon sees our victory  
In the Name of pagan noble god's blood  
Our clan will be forever

Nãfs somos a incarnaã³o  
Dos guerreiros de uma terra distante  
As sombras que se levantam  
O golpe mortal da espada  
A fãeria e o ãfdio eterno  
O som do trovã³o que anuncia a tempestade
