(Anderson, Niven, Russell)

There's always more than meets the eye
Sometimes a smile can hide a lie
Learn't me the hard way don't it show
S'listen up and you will know

Baby's got a set of wheels
She knocks me off my feet
Ooh she's got me burnin'
Cruisin' down the street

I gotta have that girl
To ease my achin' love
Oh, wontcha' take me for a ride
She says I gotta steal her stars from above
She says I gotta did her diamonds from the mine
Before she'll...
Now that's cold hearted lovin'

Now papa told me me what to do
Go find a love pure and true
I know how lovin' ought to be
Hey girl, whatcha see in me?
Baby's got me scratchin' like a dog outside her door
Ooh she's got me slavin' and I can't take no
More, more, more, more
And that's cold hearted lovin'
