

## Great White "Hold On"

(Kendall, Russell, Holland, Black)

Staring out my window  
See their faces, they can't hide.  
Strangers from a daydream  
Running rabid, pass me by.

I'm just one man  
Caught in a world's confusion  
Look for a way out  
Can't find no "easy solution"..  
But I'll try... to make it all that I need  
Don't say die  
Gotta hold on  
Gotta hold on one more  
Gotta hold on

Gotta hold on one more  
One more day

Been around. I've seen it all  
Heard all the lies  
Sure I've had my blue days  
But got no time to cry

The makers and takers that never give back  
They got me running, they're dogs on my tracks
