The moment's come now for your heart to make a stand
You know it's time to make a change
And time and time we walk through fire to understand
The things that we must rearrange

I sympathise I know it's easy to forget
The things we do that bring us pain
The simple truth is that it's hard to separate
The life we lead from what we really need

And I don't mind
Baby any time you could use my love along your way
And I don't mind
Any time 'cause any time you need me i'll be there

A time of phases a time of letting go
Of all those tears you've tried to hide
When mere reflection isn't deep enough to show
All the heartaches you've denied

You'll realise who you really want to be
When you look into your heart
And find the truth is that it's hardest
To replace the fantasy with what we really see

And I don't mind
Baby any time you could use my love along your way
And I don't mind
Any time 'cause any time you need me i'll be there
Yes I will
Stretch it out

Sometimes you feel you've thrown it all away
When all the while you've just begun
Sometimes it's hard just to face another day
But hold onto yourself girl don't you stray

And I don't mind
Baby any time you could use a hand along your way
And I don't mind
Any time 'cause any time you need me I'll be there

And I don't mind
Any time you just need a friend I'll be around
And I don't mind
Any time easy does it girl I'll be there
Any time
Any time
