

Great White "Last Time"

Well, I found a new way, not the way the old folks tried.
Well, I'm pushin' harder, got my sights set for the sky.
I live my live on the run. I do my time on my own.
If you get too close you can steal my heart.
So you want me back now. Sorry, baby. I can't stay.
You had your chance girl, but you threw it, threw it
away.

I tried to make you mine. You wouldn't give me the
time.
Don't wanna feel that pain anymore.
The last time, the last time, the last time I fall.
The last time, the last time, the last time I fall.

Well I'm on my way. I've got no time to lose today.

It's the last time that I'll fall.
