(Lardie, Niven, Russell)

Well I've been driftin' alone in the night  
I've had the blues for you so long  
I've been down, I've been confused  
Searchin' for an answer baby  
One that I can use

Lyin' here in the mornin' light  
Promises fade like the dreams of the night  
My old love, you don't come no more  
Bring me lovin' baby, like you did before

Was it the time  
Was it someone on your mind  
Was it just love for awhile  
Maybe someday when the hurtin' is gone  
Baby someday love will stay on  
Maybe someday we will do no wrong  
I know we can make it alright babe if we try  
Maybe someday

I've been thinkin' darlin'  
Of all the times before  
When I needed lovin'  
Why did it walk right out the door  
Do I hold you too hard baby  
Jealous you don't stay  
I guess that's lovin' you darlin'

Is it the time  
Is there someone on my mind  
Is it love once in awhile  
Maybe someday the need will be gone  
Maybe someday I'll find to move on  
Maybe someday there's a way to belong  
Maybe I'll find it today  
Baby our way  
Maybe someday
