

Great White "On The Edge"

Visit "[On The Edge](#)" on [MotoLyrics.com](#)

I been hanging my life from a frayed tight wire
I been walkin' thin ice with my heels on fire
Keep racing my heart so the beat won't miss me
Still wanting a night when the stars will kiss me

I got too much time, too much time
I don't know who's alive
Never satisfied livin' on the edge
The edge of time waiting for a perfect crime
On the edge, the edge of time livin'

Everyone I see's got the cool cold shoulder
Just hangin' around gettin' slow and older
Like a little girl suckin' chemical cola
Strung out on lies that the TV sold her

I got too much time, too much time
I don't know who's alive
I never satisfied livin' on the edge
The edge of time waiting for a perfect crime
On the edge, the edge of time livin'
On the edge, the edge of time waiting for a perfect
crime
On the edge, the edge of time livin'
On the edge

I got too much time
I don't know who's alive
Never satisfied livin' on the edge
The edge of time waiting for a perfect crime
On the edge, the edge of time

Livin' on the edge
The edge of time waiting for a perfect crime
On the edge, the edge of time livin'
On the edge
