(Kendall, Niven)

Adrift out on an open sea  
A life raft seekin' company  
Sailing on a sea insane  
Rolling with the waves of pain  
Chance determines destiny  
Tide can be the enemy  
When the moon is shining bright  
It hangs there like a becon light

Your're looking for a place to stay  
A place to leave another day  
Water leaves no trace behind  
Of all the ways your life unwinds

So sail away  
Sail away  
Sail away  
Sail away

As you come you come alone  
All you are is what you know  
Dependent on your memory  
Remember who you used to be  
Reason is a raging wind  
Beating on your weathered skin  
Confusion is the tidal flow  
Pulls you like an undertow

Adrift out on a sea of tears  
Navigating by your fears  
Searching in the stars above  
A way to find your isles of love

So sail away  
Sail away  
Sail away  
Sail away

A sea of faces flow by me  
Islands of identity

Isolated constantly  
No ones's where he ought to be

So sail away  
Sail away  
Sail away  
Sail away
