When the day turns to night and I'm lost in a dream
Reaching for something that just can't be seen
One look in your eyes sets me free

The moment we touch is the moment you'll feel
That all you've believed has become so unreal
In the blink of an eye everything's changed

How long how long will it take
To find you capture your heart I've been so long alone
I can't wait another day
How long how long must I wait
To show you the love I've been saving for only you
I can't face another day

Shine we will shine
From a sea of emotion we'll climb
High enough to heal one another
Shine baby shine
All the love you will need's only mine
Fall into my arms and we will shine

When the day turns to night and the shadows return
We'll see how the flame of our love it still burns
We'll walk hand in hand with the starlight

How long how long will it take
To find you waiting for me on the edge of the night
Will faith show me the way
How long how long must I wait
To give you the love I've been saving for only you
I can't face another day

Shine we will shine
From a sea of emotion we'll climb
High enough to heal one another
Shine baby shine
All the love you will need's only mine
Fall into my arms and we will shine

And riding on the wings of love together
We'll see the world from a different place

Together forever we'll live there as one

Shine we will shine
From a sea of emotion we'll climb
High enough to heal one another
Shine baby shine
All the love you will need's only mine
Fall into my arms and we will shine
Fall into my arms and we will shine
Fall into my arms and we will shine
