So here we are all alone and it's getting darker  
I know I should get up and leave  
Cause I'm not thinking clearly  
I know it's just so difficult  
When your body is calling

I guess I should probably behave  
But I don't want to tonight

I know I should get up and leave  
Cause I'm not thinking clearly  
I know it's just so difficult  
When your body is calling  
I can't help but imagine what it would be like  
Which means that I, that I should be on my way

I guess I should probably behave  
But I don't want to tonight

I know I should get up and leave  
Cause I'm not thinking clearly  
I know it's just so difficult  
When your body is calling

Now is the time when I show you I love you  
One day we'll look back on tonight...
