It's taken all this time for me to realize
What you mean to me
If I had one more chance then I would take it all back
Just to show you
I can't live without you here
You tear my world apart
If only I could just make this right (there's nothing I
want more)
There's nothing I want more
Than just to be with you (be with you)
Just when I thought I found who I've been searching for
You say I'm too late
Have you forgotten all that we shared in the past
Just another
Change is all that I ask
You tear my world apart
If only I could just make this right (there's nothing I
want more)
There's nothing I want more
Than just to be with you (be with you)
Take my hand we'll disappear from it all
It doesn't make sense when your not here with me
You tear my world apart
If only I could just make this right (there's nothing I
want more)
There's nothing I want more
Than just to be with you (than just to be with you)
