"Until Tomorrow"

Visit "[Until Tomorrow](#)" on MotoLyrics.com

You say just breathe
But how can I when
You suffocate me
How can you live with yourself
This is the last time
I'll lye awake thinking about you
This is the last time
I'll be the one you stab the knife through
You say that you love me
I find it funny
To hear that from you
How can you live with yourself
This is the last time
I'll lye awake thinking about you
This is the last time
I'll be the one you stab the knife through
Are you satisfied
Now that you've tried to kill me
You didn't succeed
I'll never bleed for you again
Are you satisfied
Now that you've tried to kill me
You didn't succeed
I'll never bleed for you again
This is the last time
I'll lye awake thinking about you
This is the last time
I'll be the one you stab the knife through
This is the last time
I'll lye awake thinking about you
This is the last time
I'll be the one you stab the knife through
Only for you(5x)
