You want love
You fake love
You take it for granted
It slips through your fingers

You're frightened and scared of
Commitment, resentment
Be honest, it's alright
It's right here for your eyes

It goes fast, shoots right past
The years fly, pass you by
So grab it and shake it
Don't be scared to break it

Breathe, don't hold your breath
You might be next so brace yourself
Lived for today, it's on it's way
So brace yourself

Now reach down inside you
Be quiet with your truth
Have you lived through
Your demons inside you?
Remember how you feel
It's fragile, it's so real
You feel high, you feel low
You don't know when you'll go

Breathe, don't hold your breath
You might be next so brace yourself
Lived for today, it's on it's way
So brace yourself
So brace yourself
There's no one else
Brace yourself
There's no one else

Breathe, don't hold your breath
You might be next so brace yourself
Lived for today, it's on it's way
So brace yourself

Lived for today, it's on it's way
So brace yourself
So brace yourself
There's no one else

Lived for today, it's on it's way
So brace yourself
