Hiding for the future, hiding because it's the way
She will plant
And give no grief to disposition

She is an alligator
Bet she'll tell you later

I got the key twidle your head
Cause all the alligators know me
I know

Untold merry tale

With that she will see

With one hell of a

All the better

She is an alligator
Bet she'll tell you later
I got the key, by you and me
Cause all the alligators know me
I got the key, got an idea
Cause all the alligators know me
I told you not to move
And now you feel the powerz

I know
