I see them when they go  
To their hole museum  
See them eating on all fours  
Nostalgia rusting in  
Long forgot and never been  
Slippin' in and out of time  
Clutching to the reason why

Rising: all the way but then i'm  
Falling: on my face again  
Rising: above society  
Falling: all the way

You know there's no cure  
For what you've done

I see them when they go  
In their old condition  
See them croching on all fours  
Nostalgia rusting in  
Long forgot and never been  
Slippin' in and out of time  
Clutching to the reason why
