The baby can  
Talk to me  
In his hand  
He holds the future  
A broken key  
That fits tomorrow  
All welomce to new world city

Just a friend  
A rotten kid

Now a man  
H lives in venus  
Not the palce  
You remember  
The milky war  
Killed the race  
That won the price  
All of space

Just a friend  
A rotten kid

He's trying  
To get me  
In trouble  
For lying  
I think he's  
Plotting and planting  
Flowers in my  
Head  
In my head

Just a friend  
A rotten kid
