Yeah! Green Bay Packers!
You know what time it is?

Let's give these boys a cold Lambeau welcome
Let 'em know they ain't hearing nothin' in this
house but G-Force noise
To win the game you gotta lose your voice; let's go
make some noise

Chorus

You're goin' down stone cold (x3)
'Cause the Packers are packin' the heat, yeah
You're goin' down stone cold (x3)
'Cause the Packers are packin' the heat, yeah

Verse 1

Welcome to the house that Lambeau built
The frozen tundra; the 8th wonder
Home of the Green Bay Packers, of course
Feel the intense roar of the G-Force
You know the history of this house
Step onto the field get frozen and blown out
See the faces on the tundra vision
Green Bay pack on a victory mission

Chorus

Verse 2

Feel the intense force of the Gold and Green
Heads held high, we play the game clean
We go to battle, and we take no prisoners

Green Bay, no mercy on the visitors
Much love to the fans and community
NFC big dogs, and we're soon to be legendary
See the look in the eyes of the Green Bay world
champs
Step to the side

Chorus
