Every time I'm fallin' down  
You take the repercussions  
Headaches and anxieties  
Advancing my frustrations  
Rushings of my depression  
Sacrifice everything  
Waste with me into nothing  
Well now you're stuck with me  
Stuck with me  
Stuck with me  
Hand up your soul to my wrist  
And I'll vow my trust to you  
Moving here I always thought

I realized you've imagined  
Rushings of my depression  
Sacrifice everything  
Waste with me into nothing  
Well now you're stuck with me  
Stuck with me  
Stuck with me

Rushings of my depression  
Sacrifice everything  
Waste with me into nothing  
Well now you're stuck with me  
Stuck with me  
Stuck with me
