Love conquers every time
when two hearts come to collide
you're the card in my valentine
and a candy heart's in my mind

well true love is the rule
and you're nobody's fool

the ship's coming to the light
and it was love at first sight
baby baby you're the light
and a flame burns in my mind's eye.
when triumph bleeds into bliss,
and i knew it from the first kiss.

tonight, hearts collide,
hearts collide
hearts collide.

when triumph bleeds into bliss,
and i knew it from the first kiss.

tonight hearts collide
hearts collide
hearts collide
