Now, finally the rainfall has come  
In our life to make it deconstructive.  
Now, finally the rainfall has come,  
I want to make if another times constructive.  
This rainfall is diving on my head,  
I'll fuck this bloody bitch ,  
Across my head of blood shed

This is no reason why is rainfall is falling,  
I am restless and I went for dying ,  
This rainfall is sucking my blood away ,  
Like a leech into the river

This rainfall, this rainfall is so dangerous ,  
Like a acid into my skin,  
I don't wanna believe this, won't wanna believe this.
