Manic depression how I wish I had a gun
Monday Tuesday yesterday
I don't know what card to play Lori 1 Lori 2
I don't the hell to do
is here is she there
she's bouncin' around everywhere
is she high is she plain
all I know that girl's insane

up down all around
up down all around
up down all around
up down all around
she's a psycho girl

social work isn't a major
how much your act wager
crazy is a disease leave me alone
would please kill me
won't you see put me out of my misery
prank call nasty letter I've got something even
better
loser she's so mean padded room for my queen

up down all around
up down all around
up down all around
up down all around
she's a psycho girl

twisted and crazy her mind is lazy

stupid she's so dumb I can't have any fun
she don't know what to do that's why every one
hates you
spoiled spazed out sit back begin to pout
I'll cause I don't care anymore I'll cause
you're a stupid whore

up down all around
up down all around
up down all around

up down all around
she's a psycho girl

four ways to end it how it's so splendid
sleeping pills before bed that's one way to end up
dead
why no try this instead shoot yourself in the head
slit your wrists make it good
how I hope, I hope you would step out in front of a bus
why don't you just save us

up down all around
up down all around
up down all around
up down all around
she's a psycho girl.
