Now it seems I can't keep my mind off, of you  
My brain drifts back to better days we've been through  
Like sitting on blacktop of the school grounds  
The love I bitched about I finally found

But now it's gone and I take the blame  
But there's nothing I can do but take the pain  
Why?

Now I dwell on what you remind me of  
A sweet young girl who sacrificed her love  
As for me I am blind without a cause  
And now I realized what I have lost  
It was something real that I could have had  
Now I play the fool whose stable soul's gone bad  
Why?

Tell me all the words I might have said  
It's pumping pressure deep inside my head  
Was it bad enough to be too late?  
Just tell me the words I might have ate  
The words I might have ate  
The words I might have ate

But now it's gone and I take the blame  
But there's nothing I can do but take the pain  
Why?

Why?  
Why?  
Why?
