I will erase you
I'll take my time
And follow through...oh
I will subtract you
I'll take you off my list
My list is long

And I won't waste time
I won't wait till I fall down
No I won't wait till I fall down
I'll cast my shadow
Upon everyone who runs
Yes upon everyone who runs

I will erase you
I'll take my time
And drown you in
In my blood
I will behold you
In my hand as I close
Yes I will close

It took a long time
But now I'm done to say the least
Yes now I'm done to say the least
And now I feel fine

I cleansed my soul with your last breath (2x)

I will erase you (3x)
