Ahh Ahh Ahhhhh

Darkness I smell fumes of candles  
Burning down to find my scandals  
Turn to faith for my salvation  
Sake my life within the patience (?)

Ahh Ahh Ahhhhh

Countless times I see the faces  
Judging me for misbehaving  
How can I repent my actions  
When they feed my satisfaction  
Guilty guilty living my life

(No more) can't stand your manipulation  
(No more) free myself from your relation  
(Self control) i've got my self control (2x)  
(No more) Fuck you with your revelations  
(No more) I'm better off without interrogations  
(Self control) I've got my self control (2x)

Precious teardrops falling water  
Time to find out why we are  
Who we are  
Guilty guilty

(No more) can't stand your manipulation  
(No more) free myself from your relation  
(Self control) i've got my self control (2x)  
(No more) Fuck you with your revelations  
(No more) I'm better off without interrogations  
(Self control) I've got my self control (2x)

Ahh.....
