Everywhere I look I see your smilin' face
Every song I sing I sing in hopes you're listening
When the tables turned I longed for my mistakes
We're only human here after all oh aren't we all

Don't walk away
Don't say good bye
Don't leave me here no not tonight
Don't walk away like any other time

Come on come on
If you wanna make it right we can make it right
I said it's been too long to let go now
Give in oh oh
Come on come on
If you wanna make it right we can make it right
I said I won't be here when the mornin comes

Even with your eyes closed do you hear my voice
Carrying the way you only loved and left behind
Love's so unpredictable have we been flyin'?
We're only human here after all oh aren't we all

Don't walk away
Don't say goodbye
Don't leave me here no not tonight
Don't walk away like any other time

Come on come on
If you wanna make it right we can make it right
I said it's been too long to let go now
Give in oh oh
Come on come on
If you wanna make it right we can make it right
I said I won't be here when the mornin comes no

I just wanna be the hand you hold when you're cryin'
I just wanna be the voice that tells you it'll be alright
and
When your world is coming down and you're hope's
nowhere to be found

Well, well I'll be here, well I'll be here, well I'll be here
For ya

Come on come on
If you wanna make it right we can make it right
I said it's been too long to let go now
Give in oh oh
Come on come on
If you wanna make it right we can make it right
I said it's been too long to let go now

Come on come on oh(x4)
