Wow!

[Chorus:]

Take a Dive

Take a Dive

Take a Dive

Take a dive down...

Your mistake, accept the fault

You told me to jump before you're pushed

-----(?)

-----(?)

So take a leap before you look

[REPEAT CHORUS]

-----(?)

Lookin' for something left behind

Hoping there's something left inside

Hit him face first, hit him face first

Hit him face first for the pit of your stomach

Ooh

Enjoy...

Enjoy the trash, enjoy the garbage

Enjoy the relish and waste inside

You dash to the bottom to lift your soul

It got you nothin' but nothing left to find

[REPEAT CHORUS]

Take (7x)

Give or take

Take (2x)

Give or take
