There's this town called heaven where
Someone makes everything seem all right
But you have to stay there with her
For the rest of your life

[Chorus:]

I'm drivin', I'm drivin'
To the end of the road, I'm drivin'
I've been driven, driven
To the end of my road

Passing your town ahead
Straight to that junction for hell
Oh, I won't bother to pick you up
You'll get there all by yourself

[REPEAT CHORUS]

There's this place where
The borders of each town touch
I know that place all too well
If you stand just right, stand just right
One foot in heaven, one in hell
That's how I live my life
That's how I live my life
That's not how I wanna die
That's not how I wanna die
In my time of dying (4x)

There's this town called heaven
And there's this town called hell
Gonna keep on goin'
Won't stop 'till I've found something else

[REPEAT CHORUS]
