Come on over to my place
I'll show ya some time
Come on over to my place, baby
I wanna watch you unwind
Come on over to my place so's
I can (x12) fuck your mind, yeah
Open mind, barely alive
An open mind is an empty mind

[Chorus:]

Sew my seed, feed your thoughts
I'll get ya thinkin anything I want
Anything
Anything I want

Open mind, empty inside
You've got nothing, nothing to hide
Got your whole world in front of my hands
This is hard to understand
Got your whole world in front of my hands
This is all you understand, this is all
All you can stand, baby
Poor feeble little mind

If her mind ain't a pretty sight
If her mind is the fruit of life
And if they're sure to lay inside
That's right baby, open wide
Unwind (8x)

[REPEAT CHORUS]
