... All the light  
And all that black  
We love the light  
And we hate the fact  
A big crazy Man above  
Colored the background  
Not with His love  
But to drive us insane  
We try to prove  
Make Him a fool  
Disprove the black and the blue  
Condemn the jew  
There's all that light  
Exploding  
Nuclear  
White  
Hot  
Bright  
But where the hell  
Does come  
All that black?  
Unexplainable  
Unattainable  
They build machines  
Stuck up homosexual scientists  
Trying to kill the Lord  
Prove how much we lack  
When everything is black  
The big bang  
Exploded  
But who lit the match  
Nevermind the fuse  
And dinosaurs  
Corroded  
They turned into our fuel  
Without them  
We need a mule  
Not a nun  
But I pray son  
God Lord above  
Why the hell did you drive us insane  
Not searching for Your love

But looking for the answer  
To the cancer  
Of the universe  
The black matter  
Undefinable  
No quark or atom  
Or string  
Only Hollywood machines  
That dream of destroying all  
With a liberal like Spielberg or Geffen  
Guiding us to hell  
Down to the furnace below  
With ufos  
We dwell  
Ghosts

... and huge copper windings churn  
Red hot round metals loaded with electricity  
Cooled and fueled  
Cold fusion that can kill  
A controlled hell  
With that mechanical robot insect  
Smell  
Repellent  
Pests  
They say it's one in a billion or something  
Like that  
But I say the one  
Is too big  
This lottery is rigged  
By devils down below  
And balding athiests  
Who patrol  
Grounds  
Of laboratorys  
With walls of cold sounds  
Like a Manhattan project  
Gone even wronger  
... the Earth shall implode  
Sink in  
The water  
Overtaketh us  
Watch me drown  
I just hope it's quick  
Much like a dream  
As I go down  
I gulp for air  
Or do I care?  
Almost no time for prayer  
But I do  
Unlike many of the rest

And that's when it hits me  
There is no earth left  
For God to foundate  
His new Heaven  
The gay athiest marxists have killed it  
Funded by conservatives  
Who now cannot rebuild it  
Like some Marshal plan  
The end of man  
Chasing a dollar  
And chasing the dream  
Of no God atlast  
Proven  
No half masts  
For us  
We are gone  
Imploded  
Sucked into oblivion  
Of  
The black hole  
Sygnus X-1  
Or something like that...  
We made our selves  
And sold on the cheap  
From China

... and  
In the event  
Something should happen to me  
Have you seen my wife  
Mr. Jones?  
No  
For No one sees anything  
No one sees a thing  
Except the blackness  
Of the matter  
A matter of fact  
We are all dead  
Super cooled in our morgue  
Mars and Venus and Mercury  
Fly by  
And they all smile  
For we are all like as if  
Heaven's gate  
The ufo behind the comet's blast  
And no piece of ass  
Can make you a stud now  
Boy  
For you are among the dead  
Of history  
Killed by a gigantic battery

A huge swimming pool motor  
That spun round  
Releasing stranglets and satans  
Into the ground  
They whirlpool  
To thy centre of the Earth  
Where they don't mingle with the lava  
Through the mantle  
They attack and destroy  
Just as man  
That spawned them  
Jealousy  
The Black holes  
Of Earth x-1  
So tiny and harmless  
They fade  
Only to be microscopic and dangerous  
Seconds later  
Alligators  
With teeth for ground  
Yes a gigantic YTK  
The Christians obey  
A huge battery  
Nucleous  
Ions and eons  
Reactor  
Warp speed  
Max q  
Speed of light  
Instant death  
And instant life  
On the otherside  
Heaven  
For those consumed  
In the flames  
... but still  
Believed...
