Storm these walls,

'Cos I'm not giving you the keys

Let it go, let it go now, let me go and give me peace

As cold as stone we are

Or skin and bones, it's crazy

What's done is done

So hate me

If it makes it easy?

(Refrain)

So it's

Good bye to your little white lies

It wouldn't hurt to tell the truth sometimes

I'm sweet, yeah you better believe it

I'm not one to criticize

But you never had a smile that could reach the eyes

On three, on four

Close the door as you're leavin'

I have of late

Considered how I feel

And every day, every day now

It's becoming clear

I'm tired and wasted

And I can't take it,

So go ahead and hate me

If it makes it easy

(Refrain)

So it's

Good bye to your little white lies

It wouldn't hurt to tell the truth sometimes

I'm sweet, yeah you better believe it

I'm not one to criticize

But you never had a smile that could reach the eyes

On three, on four

Close the door as you're leavin'

Oooohhh yeah

Self pray, salvation

So damage invention

I'm out of danger

From your rudy nature

So go ahead and hate me

If it makes it easy

(Refrain)

Good bye to your little white lies

It wouldn't hurt to tell the truth sometimes

I'm sweet, yeah you better believe it

And I'm not one to criticize

But you never had a smile that could reach the eyes

On three, on four

Close the door as you're leavin'

Think that you should know

Goodbye

'Cos this time, this time you better believe it

No more little white lies

No more little white lies

Close the door as you're leavin'

Bye Bye
