Seeing things I've never seen  
In this dull place of conformity  
Couldn't give you any reasons  
Just make it what you want it to be  
Chorus:  
It may seem that it's all right  
Everything's just black and white  
Some things just never change  
That's why...  
I gotta get outta here  
Look around me I see people  
Walkin' up and down the street  
I turn the music loud  
And they're dancin' to a different beat  
You can go on living by  
What other people have to say  
Or you can change your life  
By doing what you want to anyway  
Chorus:  
It may seem that it's all right  
Everything's just black and white  
Some things just never change  
That's why...  
I gotta get outta here  
Seeing things I've never seen  
In this dull place of conformity  
Couldn't give you any reasons  
Just make it what you want it to be  
Oh I gotta get outta here  
Yeah I gotta get outta here
