Went for a walk to clear my aching head
But it only clouds me up
Like fogged up windows I can not see through
There is a raincloud above my cup

Chorus:

No use complaining
Whining gets you nowhere
Drink of yourself into a daze
Pour in the knowledge, pour in the bitter faith
Pour in the love gone sour
Down it in a single shot
Drink of this for it is my only love
Don't you think it's a funny thing to do
You'd rather drink a cocktail of yourself
Can't think of a better thing for you

Chorus:

No use complaining

Whining gets you nowhere
Drink of yourself into a daze
Pour in the knowledge, pour in the bitter faith
Pour in the love gone sour
Down it in a single shot Solo
Take of yourself
Drink of yourself
Take it down in a single shot
Take of yourself
Drink of yourself
Take it down in a single shot

Chorus:

No use complaining
Whining gets you nowhere
Drink of yourself into a daze
Pour in the knowledge, pour in the bitter faith
Pour in the love gone sour
Down it in a single shot
