What happens, every day, what happens, I wonder?
What happens to the lies, what happens when at what
time?

Sometimes I wonder
Sometimes I wonder
Sometimes I wonder
Wonder about the world
I wonder

Would it be better if I never existed
Would it be better if no-one ever listed
The things that happen every day
If no-one ever looked the other way
I wonder

What happens, every day, what happens, I wonder?
What happens to the lies, what happens when at what
time?

Sometimes I wonder
Sometimes I wonder
Sometimes I wonder
Wonder about the world
I wonder

Would it be better if I never existed
Would it be better if no-one ever listed
The things that happen every day
If no-one ever looked the other way
I wonder
