Takes her pill and makes her dumb, she moves too slow

She sleeps in an aquarium, she moves too slow

Valium, buds, and alcohol

My girl likes to take them all

She's always moving way too slow

Take her out so we could dance, she moves too slow

She left in the ambulance, she moves too slow

Throwing up, cold sweats, and shake

My girl, she hallucinates

She's always moving way too slow

She always speaks in monotone

Talks to the wall when she's alone (hello, hello, hello)

She loses things, she says oh well

When she's awake she just can't tell (at all, at all)

Just last night she lost control, she moves too slow

Now she lives at the hospital, she moves too slow

Valium, buds, and alcohol

My girl likes to take them all

The whole world's moving way too slow

She says the whole world's moving way too slow

And she don't know where she wants to go

The whole world's moving way too slow

Moves too slow
