I always swore that  
Falling in love was not  
Something that I would ever  
Want to do

Then you came along  
And lit a fire in my heart  
Now I swear I won't give up  
Until I get you

Into my love  
It's the only way  
'Cause I just can't get you  
Out of my mind  
Oh, no

Into my love  
I need you night and day  
I just can't stop this  
Feeling for you  
Only one thing left to do  
I just got to get you  
Into my love

Sometimes I wake up  
In the middle of the night  
And just lay there  
Thinking about you  
I'm hooked on that feeling  
And I really don't know why  
But I know that you're the one  
And I got to get you

Into my love  
It's the only way  
'Cause I just can't get you  
Out of my mind  
Oh, no

Into my love  
I need you night and day  
I just can't stop this

Feeling for you  
Only one thing left to do  
I just got to get you  
Into my love

Into my love  
I'll be good to you baby  
Into my love  
You don't have to be afraid  
Into my love  
Boy, you're driving me crazy  
Then I just won't rest  
'Til I get you out of my head

Into my love  
It's the only way  
'Cause I just can't get you  
Out of my mind  
Oh, no

Into my love  
I need you night and day  
I just can't stop this  
Feeling for you  
Only one thing left to do  
I just got to get you  
Into my love

It's the only way  
'Cause I just can't get you  
Out of my mind  
Oh, no

Into my love  
I need you night and day  
I just can't stop this  
Feeling for you
