You're on top of the world,
When its get you down,
When you're flying tru the air and,
You're crashing to the ground,
When you're searching for the light,
It's nowhere to be found,
Just find me baby,

I don't wanna be the strings,
That ever tie you down,
I won't ever be the broken wings,
That keep you on the ground,
But when you start to sing,
I will be the sound,
Just let me baby,

(refrein)

I only wannabe be the one you love,
I only wannabe be the one you want,
So come and get me baby,
let me lose inside your soul,
I only wannabe be your everything,
I wannabe be the star in all your dreams,
I do anything to be the one you love,

Baby you can tell me everything,
All the secrets of your heart,
You can look inside of me,
And see how beautiful you are,
I wanna show you everyting,
Each and every part in me is yours,
Just take it baby,

(refrein)

Let me be the lover,
You want to uncover,
Let me be the one you love,
Hey baby,

(refrein)
