I been walking down a concrete street
Stood on a step with the same two feet as before
You think you can walk away from love

You're dreaming about living in a place of your own
Very fast car on a very long road
A smile from you
A hug that leaves no doubt

Now the sun is out, it's warming up between us
We've got to keep the faith so the love can never leave
us
Sweet lover well you know what I like
Don't stop 'cause it's going to be all right

We're not friends if you don't have time it's like
Johnny Cash and the ties that bind
If you think you'll never walk the line you're dreaming
You're dreaming about living in a tree-lined street
Kicking up leaves with the same two feet as before
You don't want to be lonely anymore

Now the sun is out, it's warming up between us
We've got to keep the faith so the love can never leave
us
Sweet lover well you know what I like
Don't stop 'cause it's going to be all right
Stick with me tonight
It's going to be all right
It's going to be all right
It's going to be all right

Been walking down a concert street
I stood on a step with the same two feet as before
You think you can walk away from love

Now the sun is out, it's warming up between us
We've got to keep the faith so the love can never leave
us
Sweet lover well you know what I like
Don't stop it cause it's going to be all right
It's going to be all right

Now the sun is out, it's warming up between us
We've got to keep the faith so the love can never leave
us
Sweet lover well you know what I like
Don't stop it cause it's going to be all right

If you stick with me tonight
If you stick with me tonight
It's going to be all right
