This is just about as much as I can handle  
I'm not nearly strong as I can sometimes seem  
My life turned on a dime  
Nearly threw me out  
Out of time

Same as you  
Same as me  
Same as everything we've seen

Same as you  
Same as me  
Same as everything we've seen

Oh  
And everything is nothing 'cause everything was me  
Everything is nothing 'cause everything was me

All of you  
And all of me  
All of everything we've seen

All of you  
And all of me  
All of everything we've seen

Was all of it for nothing  
Was all of it for me

Was all of it for nothing  
Was all of it for me

Turns out all of it was nothing 'cause everything was  
me  
Oh  
And everything is nothing 'cause everything was me

My  
My  
How quickly I'm outside of you

My  
My  
How quickly everything that I knew

It turns out that everything is nothing as everything was  
me  
Oh  
Is everything for nothing 'cause everything for me

Oh  
And everything is nothing as everything was me to you  
Everything is nothing as everything was

My  
My  
How quickly I'm outside of you

My  
My  
How quickly everything that I knew
