"That It Moves"

Visit "[That It Moves](#)" on MotoLyrics.com

Here's a song that I waited to write with you
Think I'll finish it instead
I got enough from you love that it finishes itself
I regret

Oh
But do you like the way that it moves
Oh
Do you like the way that it moves
Oh
Do you like the way that it moves
Oh
Do you like the way that it moves

Here's a song that's been in my head
So many things we said never quite were sung
Take the melody love and forget the words if you must

Oh
But do you like the way that it moves
Oh
Do you like the way that it moves
Oh
Do you like the way that it moves
Oh
Do you like the way that it moves

Take your time with the meter
The rhythm will find you if you play it through
And if I'm there at the turn dear
We can give an ending that I think this song is due

'Cause I think I like the way that we moved
Oh
I think I like the way that we moved
Oh
Did you like the way that we moved
Oh
Did you like the way that we moved
