Come On  
Let's Go  
All Right  
Are You  
Ready?

Thought we were so good together  
Guess forever didn't really mean always  
I found out the hard way (hey-yea)  
Now where's my happy ever after  
A simple question you won't answer babe  
Why you playing with me  
You said it's over and that you don't care  
So I'm wondering what you're doing here (oooh-yea)

No! It's not alright for you to try to come around  
And pick up where you let me down  
What makes you think I wanna get back together  
No! It's not alright for you to say you're sorry now  
I don't know what you're talking 'bout  
Your hoping that I'm liking it  
You're so whatever

Finally got you out my system.  
Now you're wishing things were still the same  
Sorry, but it's too late  
Had your chance  
But now it's over  
It's like I told you when you walked away  
I know you're gonna miss me  
I still remember when you made me cry  
But this time I'm the one saying goodbye (Oooh-yea)

No! It's not alright for you to try to come around  
And pick up where you let me down  
What makes you think I wanna get back together  
No! It's not alright for you to say you're sorry now

I don't know what you're talking 'bout  
Your hoping that I'm liking it  
You're so whatever

You have to live and learn when  
Someone does you wrong  
Brush it off and move on  
Cause tables always turn  
And one day you will hurt  
And realize that what is gone is gone  
Baby!  
It's not alright for you to say you're sorry now  
I don't know what you're talking 'bout  
Your hoping that I'm liking it  
You're so whatever

No! It's not alright for you to try to come around  
And pick up where you let me down  
What makes you think I wanna get back together  
No! It's not alright for you to say you're sorry now  
I don't know what you're talking 'bout  
Your hoping that I'm liking it  
You're so whatever

No! It's not alright for you to try to come around  
And pick up where you let me down  
What makes you think I wanna get back together  
No! It's not alright for you to say you're sorry now  
I don't know what you're talking 'bout  
Your hoping that I'm liking it  
You're so whatever

It's not alright  
Oh no (woah, yea yea)  
It's not alright (it's not alright)  
Oh no  
Oh no  
No!
