"Come Clean"

All in a day, all in a day
I am without you.
Just yesterday I was on top
of my game with you.

Then I should when you
were away I think I knew
But I refused, I refused to see.
Why did you never come clean with me?
Why did you never come clean with me?
In the moment you've erased
my ability to hate
you were at it again.

Welcome to my new place
take advantage of my grace.
We're at it again, my love.

This is not so innocent
this is not what I had planned.
I think I should be going.
Why did you never come clean with me?
Why did you never come clean with me?
So explain to me yesterday
what about all those things you say
dear we're at it again.

Welcome to my new place
take advantage of your space
we're at it again.

This is not so innocent
this is not what I had planned.
Why did you never come clean with me?
Why did you never come clean with me?
