"Landline"

Visit "[Landline](#)" on MotoLyrics.com

I think the tree may fall in the front yard
if this storm has it's way
I hear you dancing on the floorboards above
unaware of what's at stake
All I ever needed was a landline
just in case the power lines go down
All I needed would never be enough for me

I think the storm may take the screen door
if the wind gets it's way
I hear you singing on the floor just below
unaware of what's at stake
All I ever needed was a landline
just in case the power lines go down
All I needed would never be enough for me

All I ever needed was a landline
just in case the power lines go down
All I needed would never be enough for me
All I ever needed was a landline
just in case the power lines go down
All I needed would never be enough for me

All I needed would never be enough for me
All I needed would never be enough for me
All I needed would...
All I needed would never be enough for me
All I needed would never be enough for me
