I helped pack up yesterday
And on the drive over you gave way
And I realized you're down and out
But I've never been more proud

Go ahead and take your time
While I repay
Wasting years of mine
I know I'm late
Arriving

And I know about your elaborate plans
And we've lost keeping them intact
And I'm well aware the place you're in
Well you'll be damned if I get in

Go ahead and take your time
While I repay
Wasting years of mine
You know I'm late
Arriving

Seven years ago November
I remember you said
Life
Was more than what we planned on and
I
Thought you'd gone crazy

Go ahead and take your time
While I repay
Wasting years of mine
You know I'm late
Take your time
While I repay
Wasting years of mine
You know I'm late
Arriving
