What of my escape?
What else can I say?
I'll play dead and you can stay.

And I'll help you kill your time
if you help me kill my night,
and maybe one day get it right.

Go ahead and lie to me,
I'll believe in anything you say tonight.
Go ahead and lie to me.
Write 'I love you' while I sleep,
and hide it for another day to find

I will not confuse
this for something true,
only that what gets us through.
But I'll wonder down the line
when both of us are fine
yeah my mind wonders there sometimes.

Go ahead and lie to me,
I'll believe in anything you say tonight.
Go ahead and lie to me.
Write 'I love you' while I sleep,
and hide it for another day to find

I don't mind playing the fool
I don't mind playing the fool, no
I don't mind playing the fool

Go ahead and lie to me,
I'll believe in anything you say tonight.
Go ahead and lie to me.
Write 'I love you' while I sleep,
and hide it for another day to find.
