You have been such a friend to me down through the  
years  
All of the good and bad we've shared  
Truer than any man could be love without pretense  
You were the answer to my prayer  
And I am so thankful  
Words can never be enough  
I am so thankful  
And I give to you my love

Chorus:

Though it's just an offering  
I will give you everything  
Cause you know I want to be faithful and true  
So when I have a cross to bear  
I realize that you've been there  
That is why my heart is thankful for you

Even when my faith seems to be darkened by my fear  
I look for you and you're always there  
And I don't understand why you would give this all to  
me  
I only hope that you will see  
That I am so thankful  
Words can never be enough  
I am so thankful  
That you've given me your love

Chorus
